

# Accelerated processing

Digital Mailing System  
with IntelliLink® Technology  
DM400™ Series

# Maximize productivity

Free up your employees for more important tasks. Getting the mail out the door is important, but it shouldn't command all of your employee's time. The DM400™ Digital Mailing System makes mailing faster and easier to communicate with your customers and meet mailing deadlines.

The system is equipped with our unique IntelliLink® technology that gives your business access to a full range of USPS® Special Services. It has an automatic feeder that lets you process mixed size mail in a single stream.

## Boost efficiency

Easily control your mailing operation from a single source. The IntelliLink® Control Center is user-friendly and guides you as you process your mail.

- Make choices from a full range of USPS™ Special Services including Confirmation Services™ and electronic Return Receipt™
- Preset up to 10 jobs for quick access to routine tasks
- Manage postage expenditures up to 50 accounts with options for expansion
- QWERTY keyboard for fast and easy operation
- Download postal updates, software upgrades, postal inscriptions and graphics
- Choose how to pay for postage, get a postage advance, or earn interest on the balance in your Reserve Account
- Get online access to your account information at My Account and track payment history, monitor meter activity, pay bills, order supplies and request service

## Constant connection

To access postage and software downloads, connect to a telephone line and you'll get:

- 24/7 access via Internet connection through your Local Area Network
- Download software upgrades and postage at a touch of a button
- Upload Confirmation Services™ transactions for convenient mailpiece tracking

No need to move mailing your system or to install a phone line.

## Promoting business

Use your mail to advertise. The DM400™ Digital Mailing System comes with 10 standard envelope ads and 10 postal inscriptions. You can download additional ads and inscriptions directly into the IntelliLink® Control Center.

### Envelope ads

Add messages to your mail by choosing downloadable envelope ads

### Secure postage printing

Prints UPS® compliant Information Based Indicia (IBIP) secure postage printing and applies downloadable postal inscriptions

## Big results

Reduce labor-intensive activities such as hand-feeding and leverage our online services. You'll greatly improve your office productivity and get the big results you deserve.

---

**Automatic processing** – Automatic feeding, sealing and imprinting postage on up to 120 letters per minute helps to effectively manage large mailings.

---

**Flexible feeding** – Handles material up to 5/16" thick and sizes ranging from postcards up to 11" x 13" flats.

---

**Convenient updates** – Obtain postage 24/7 and handle rate changes more easily with automatic updates.

---

**Online service access** – USPS® Special Services, including Delivery Confirmation™, Signature Confirmation™ and Electronic Return Receipt™.

---

**Rate selection** – Select the most effective and economical USPS® domestic and international postage rates.

---

**Integrated weighing** – Easily process individual, oversize pieces by determining the precise postage with an integrated scale.

---

**Maximum Performance** – Upgrade the DM400™ to handle your busiest mailing periods. Increase system throughput by over 25% from 95 letters per minute to 120 letters per minute.

---

**Reduce returned mail** – Operators can advance the date to get a jump on processing the next day's mail. Mail is not returned due to misdating.

---

**Track incoming mail** – Mail date stamp provides dual functionality to track incoming mail efficiently.

---

**Postage accounting** – Tracks up to 50 accounts, with options for up to 300; data can also be printed or exported to a PC.

---

**Expanded accounting** – Increase your tracking and reporting capabilities up to 1,500 accounts with Budget Manager from Pitney Bowes.
